## 

Product ID:EPOXYLITE # R2

MSDS Date:07/01/1990

FSC:5970

NIIN:00-414-7137

MSDS Number: BMZVH === Responsible Party ===

Company Name: THE EPOXYLITE CORPORATION

Address:9400 TOLEDO WAY

Box:19671 City:IRVINE State:CA

ZIP:92713-9671

Country:US

Info Phone Num:714-951-3231

Emergency Phone Num:714-951-3231/80

0-424-9300(CHEMTREC)

Preparer's Name: REBECCA TIMMINS

CAGE:HO289

=== Contractor Identification ===

Company Name: THE EPOXYLITE CORPORATION

Address:9400 TOLEDO WAY

Box:19671 City:IRVINE State:CA

ZIP:92713-9671

Country:US

Phone:714-951-3231

CAGE:11147

Company Name: THE EPOXYLITE CORPORATION

Address:9400 TOLEDO WAY

Box:19671 City:IRVINE State:CA

ZIP:92713-9671 Country:US

Phone:714-951-3231

Medical Cond Aggravate d by Exposure:INDIVIDUALS WITH A HISTORY OF SKIN DISEASES MAY BE AT INCREASED RISK FROM EXPOSURE. |
| ======================================                                                                                                                                                                                                                                                                                                                                                                                                            |
| First Aid:YES: FLUSH WITH PLENTY OF WATER FOR 15 MINUTES.SEE DOCTOR. SKIN:REMOVE CONTAMINATED CLOTHING AND SHOES. WASH WITH SOAP AND WATER.SEE DOCTOR. INHALATION: REMOVE VICTIM TO FRESH AIR. INGESTION:GIVE LARG E QUANTITIES OF WATER OR MILK IF CONSCIOUS. INDUCE VOMIT. SEE DOCTOR IMMEDIATELY. NOTHING BY MOUTH I                                                                                                                           |
| ======================================                                                                                                                                                                                                                                                                                                                                                                                                            |
| Flash Point Method:PMCC Flash Point:485F,252C Extinguishing Media:ALCOHOL FOAM, CARBON DIOXIDE, DRY CHEMICAL, WATER FOG. Fire Fighting Procedures:WEAR SCBA WITH A FULL FACE PIECE OPERATED IN PRESSURE-DEMAND MODE. USE WATER SPRAY TO COOL FIRE EXPOSED CONTAINERS AND TO DISPERSE UNIGNITED VAPORS. Unusual Fire/Explosion Hazard:NONE                                                                                                         |
| ======== Accidental Release Measures ==========                                                                                                                                                                                                                                                                                                                                                                                                   |
| Spill Release Procedures:SOAK UP IN ABSORBENT MATERIAL OR SCRAPE UP AND PLACE IN APPROPIATE DISPOSAL CONTAINER AND COVER.                                                                                                                                                                                                                                                                                                                         |
| =========== Handling and Storage ============                                                                                                                                                                                                                                                                                                                                                                                                     |
| Handling and Storage Precautions:STORE IN A COOL, DRY PLACE. KEEP AWAY FROM OPEN FLAMES AND HIGH TEMPERATURES.  Other Precautions:AVOID EYES AND SKIN CONTACT. AVOID BREATHING VAPORS OR HEATED MATERIAL.                                                                                                                                                                                                                                         |
| ====== Exposure Controls/Personal Protection ========                                                                                                                                                                                                                                                                                                                                                                                             |
| Respiratory Protection:                                                                                                                                                                                                                                                                                                                                                                                                                           |

BISPHENOL A CAS:25085-99-8

NONE NORMALLY NEEDED. Ventilation: GOOD ROOM VENTILATION USUALLY ADEQUATE FOR MOST OPERATIONS. Protective Gloves: IMPERVIOUS GLOVES. Eye Protection: SAFETY GLASSES. Other Protective Equipment: WORK CLOTHING COVERING ARMS AND LEGS TO PREVENT SKIN CONTACT. Work Hygienic Practices: WASH THOROUGHLY AFTER HANDLING. LAUNDER CONTAMINATED CLOTHING BEFORE REUSE. Supplemental Safety and Health NONE. ======== Physical/Chemical Properties ============ HCC:N1 Vapor Density:>1 Spec Grav ity:1.2 Solubility in Water: INSOLUBLE. Appearance and Odor: WATER WHITE TO YELLOW AMBER LIQUID, LOW ODOR. Percent Volatiles by Volume:NIL ======== Stability and Reactivity Data ========== Stability Indicator/Materials to Avoid:YES STRONG OXIDIZING AGENTS AND BASES.STRONG LEWIS OR MINERAL ACIDS. Stability Condition to Avoid:HEAT Hazardous Decomposition Products: DURING COMBUSTION MAY FORM CARBON MONOXIDE, ALDEHYDES AND ACIDS. Conditions to Avoid Polymerization: WILL NOT POLYM **ERIZE BY** ITSELF.ALIPHATIC AMINES WILL CAUSE IRREVERSIBLE POLYMERIZATION WITH CONSIDERABLE HEAT BUILD UP.

====== Disposal Considerations ==========

Waste Disposal Methods:DISPOSE OF IN ACCORDANCE WITH FEDERAL, STATE AND LOCAL ENVIRONMENTAL REGULATIONS.
